Where individuals flourish

Dear Parents and Carers,

Knowledge Organisers

Class teachers have been hard at work, preparing Knowledge Organisers to enable you to support your children's learning in the foundation subjects and Science.

At Loxley, we are committed to providing children with a broad and balanced curriculum where new knowledge and skills build on what has been taught before and towards clearly defined end points. To help us to achieve this goal, teachers have produced 'Knowledge Organisers' which outline the essential knowledge and skills that they will be covering across a unit of work. These documents may include dates, significant individuals, vocabulary definitions and other technical information. They are a working document that your children will stick into their books and refer to at various points during their unit of work.

Aims of Knowledge Organisers:

- To help children learn and retain key knowledge.
- To involve parents and enable them to discuss learning at home.
- To revisit learning from past units of work and build on that previous learning, making explicit links to support understanding.
- To ensure progression in and understanding of key subject-specific vocabulary.
- To spark interest in the topic.
- To give everyone a clear picture of our curriculum intent (what we want the children to learn).

Knowledge Organisers can be found on Class pages on the school website and will be added to and updated regularly.

It would be great if you could read these documents through with your children and discuss the content and vocabulary to help their understanding. You may even wish to display them at home. If you have any questions about Knowledge Organisers, please speak to your child's class teacher.

Mrs Claire Woolley

Head of School
